

TO ALL MY CLASSMATES IN RAYTOWN SOUTH HIGH SCHOOL
CLASSES OF 1964 1965 1966

RE: CLASS REUNION

Again regret that me and my wife cannot attend our class reunion. Value my friendships with my classmates in high school as lifelong special relationships.

Fighting multiple myeloma cancer from exposure to agent orange while serving as a United States Army combat infantryman in the Vietnam War in 1967 and 1968. My compromised immune system from cancer and from cancer treatment prohibits my attendance at our class reunion.

You can make our class reunion even more enjoyable and memorable by helping increase attendance. If all my classmates contacted two fellow classmates who did not attend our last reunion and personally invited them to our class reunion you may increase the attendance and everyone will have more fun.

Attended and enjoyed previous class reunions with you. Will be at our class reunion in spirit. Again as a token of my friendship with you please enjoy an open bar and non-alcoholic and alcoholic drinks as a gift from me and my wife.

Thank you to all who contacted me during and after our last class reunion and for your expressions of concern about my health. My philosophy is the North Vietnamese Army tried to kill me and could not – not going to let agent orange kill me.

So again have drinks on me and my wife and enjoy friendships and special relationships with your classmates at our class reunion.

Rich and Cindy Koury
